

Project Initialization and Planning Phase

Date	30-06-2026
Team ID	XXXXXX
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am Applicant seeking a loan	I'm trying to Secure a loan for property	But Married with no co-applicant income	Because Self-employed with a good credit history	Which makes me feel Optimistic about loan approval
----------------------------------	---	--	---	---

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Farmer	Select the best crop for cultivation	I don't know which crop suits my soil	Soil nutrients and weather conditions vary	Confused and worried about crop failure
PS-2	An Agricultural Researcher	Study crop-environment relationships	Large datasets are difficult to analyze manually	Many environmental factors influence crop growth	Need a reliable AI-based analytical solution
	A Government Agricultural Officer	Improve farming productivity	Traditional farming lacks intelligent decision support	Recommendations are not based on real-time data	Concerned about sustainable agriculture
